

Rail Traction Supplies Degreaser (Product Code RTS/Degreaser)

Description

Rail Traction Supplies Degreasing Fluid is a very effective cleaner based on petroleum solvent and surfactants.

Applications

The Degreasing Fluid is designed for use in general industrial degreasing applications.

Use for cleaning oily and greasy surfaces, from floors to engines and machine parts.

Apply to contaminated surfaces by spray, brush or cloth and if necessary allow to soak into heavy soiling for a few minutes.

Thereafter, apply water to clean the surface.

Rail Traction Supplies Degreasing Fluid can be hosed down drains.

Typical Data

Specific Gravity (°C):	0.857
Flash Point (°C):	55
